

# URBANDALE MIDDLE SCHOOL

*Urbandale, IA*

**TYPE OF CONSTRUCTION:**

Addition / Renovation

**SIZE:**

68,000 SF

**OWNER:**

Urbandale Community School District

**ARCHITECT:**

DLR Group, Inc.

**DETAILS**

This occupied project consisted of selective demolition and renovation of existing spaces, including mechanical and electrical upgrades, installation of fire suppression system, and the construction of four additions. The new additions included science, general, and special education classrooms, cafeteria / commons, gymnasium, locker rooms, and a mezzanine level for a fitness area.

Despite the challenges we faced with subcontractors going out of business, we were able to partner with the District to address these issues and, in the end, deliver a great project.
